Job Description: Facilities Operator

RED-Burlington, LLC, a division of Recycled Energy Development, LLC, is seeking an experienced person to be the sole operator of a cogeneration facility located at an industrial site. Responsibilities include:

- Operate Solar Centaur 4700 natural gas turbine
- Maintain safety and environmental compliance
- Perform routine maintenance and monitoring
- Maintain the dispatch level of the cogeneration unit in accordance with the direction from the asset manager
- Manage the operating budget
- Manage the preventative maintenance schedule
- Oversee inspections
- Interact and communicate with the industrial host on an ongoing basis.

Location: Burlington, NJ

Experience Requirements: 5-10 yrs in Facilities Operations or Marine Engineering Operations

Compensation: Commensurate with experience level

Required start date: February 1, 2012

Contact: Amy Reick at areick@recycled-energy.com.
